What is this product?

Type

The Company is an open-ended investment fund with multiple compartments (société d'investissement à capital variable (SICAV) à compartiments multiples) incorporated in the form of a public limited company (société anonyme) governed by Luxembourg law, established in accordance with the provisions of Part I of the 2010 Law. The Company was incorporated for an unlimited duration on 04 November 2022 under the name of VALORI SICAV. The Articles were published in the RESA on 17 November 2022.

Term

The Product does not have a maturity date (the Product has been established for an indefinite period of time). The Manufacturer may terminate the Product early. The amount you will receive upon early termination may be less than the amount you invested.

Objectives

The Sub-Fund invests with a medium to long-term strategy, aiming at increasing the value of its assets using a sustainable and ethical approach. The Sub-Fund's assets are predominantly invested in securities from issuers in accordance with the ESG policy available at www.valorisicav.com. The Sub-Fund is mainly to invest in listed shares on stock markets and/ or other regulated, regularly functioning, recognized and open markets, in bonds and money market instruments and UCITS and /or other UCIs. Up to 15 % of the Sub-Fund Net Asset Value can be invested in High Yield Bonds with a S&P's min. rating of B- or an equivalent rating issued by another rating agency. The remaining Part of the Bonds investments under this Sub-Fund will have at least investment grade rating.

The Sub-Fund may be invested, in its total discretion:

- from 0% to up to 70% in equity

- from 0% to up to 70% in bonds using a portfolio diversification strategy.

The remaining part of the Sub-Fund's assets will be invested in money market instruments. The Sub-Fund will not invest more than 10% of its assets in UCITS and / or other UCI, including ETFs. The Sub-Fund may also hold on a temporarily basis ancillary liquid assets up to 20% of the Sub-Fund's assets. The Sub-Fund may enter into securities lending transactions. The investment in financial derivatives instruments is allowed, for hedging and/or speculative purposes. The Sub-Fund will not make use of other securities financing transactions. The sub-fund is actively managed and does not refer to any benchmark. This sub-fund promotes environmental and/or social characteristics but does not have a sustainable investment objective.

Income of this share class is reinvested. The exchange rate risk of the share class currency is to a large extent hedged against the currency of the fund.

Intended retail investor

This fund applies to retail investors with a basic financial understanding, who can accept a possible loss on the investment amount. The fund is aimed at generating a substantial part of its yield through recurring income, while granting daily access to the capital under normal market conditions. The fund is suited to be acquired by the target client segments without any restriction of the distribution channel or platform.

Depositary

UBS Europe SE, Luxembourg Branch

What are the risks and what could I get in return?

Indicator

The risk indicator assumes you keep the product for 4 years.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 3 out of 7, which is a medium-low risk class.

This rates the potential losses from future performance at a medium-low level. The past may be a poor predictor of the future and, hence, the actual risk of losing money may vary significantly.

Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

The product may be exposed to further risk factors such as operational, political and legal risks which are not included in the summary indicator. Please refer to the prospectus for more detail.

This product does not include any protection from future market performance so you could lose some or all of your investment.

If we are not able to pay you what is owed, you could lose your entire investment.

However, you may possibly benefit from a set of consumer protection rules (see section "What happens if we unable to make a payment?"). The indicator shown above does not consider this protection.

Performance Scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate and favourable scenarios shown are illustrations using the worst, average, and best performances of the product over the last 10 years. Markets could develop very differently in the future.

Recommended holding period:		4 years	
Example Investment:		10000 CHF	
		If you exit after 1 year	If you exit after 4 years
Scenarios			
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs	5900 CHF	6500 CHF
	Average return each year	-41.0%	-10.2%
Unfavourable	What you might get back after costs	8110 CHF	9940 CHF
	Average return each year	-18.9%	-0.2%
Moderate	What you might get back after costs	10430 CHF	11760 CHF
	Average return each year	4.3%	4.1%
Favourable	What you might get back after costs	11670 CHF	13420 CHF
	Average return each year	16.7%	7.6%

The stress scenario shows what you might get back in extreme market circumstances.

The figures shown include all costs of the product itself. The figures do not take account of your personal tax situation, which can also have an impact on how much you receive back.

This type of scenario occurred for an investment between 2012-12-31 and 2022-11-30.

What happens if UBS Fund Management (Luxembourg) S.A. is unable to pay out?

Losses are not covered by an investor compensation or guarantee scheme. Furthermore, with respect to UBS Europe SE, Luxembourg Branch as depositary of the Fund, which is responsible for the safekeeping of the assets of the Fund (the "Depositary"), there is a potential default risk if the assets of the Fund held with the Depositary are lost. However, such default risk is limited as the Depositary is required by law and regulation to segregate its own assets from the assets of the Fund. The Depositary is liable to the Fund or to the investors of the Fund for the loss by the Depositary or one of its delegates of a financial instrument held in custody unless the Depositary is able to prove that the loss has arisen as a result of an external event beyond its reasonable control.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The table shows the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods, we have assumed that the product performs as shown in the moderate scenario.
- 10 000 CHF is invested.

	If you exit after 1 year	If you exit after 4 years
Total costs	130 CHF	554 CHF
Annual cost impact (*)	1.3%	1.3% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example, it shows that if you exit at the recommended holding period your average return per year is projected to be 5.4% before costs and 4.1% after costs.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	We do not charge an entry fee.	0 CHF
Exit costs	We do not charge a redemption fee for this product, but the party who sells the product to you may do so.	0 CHF

How long should I hold it and can I take money out early?

Recommended holding period: 4 Year(s)

The recommended holding period for this product is 4 year(s). This is our recommended holding period based on the risk and expected return with the product. Please note that the expected return is not guaranteed. The more the actual holding period deviates from the recommended holding period for the product, the more your actual return will also deviate from the product assumptions. Depending on your needs and limitations, a different holding period may be suitable for you. Consequently, we recommend that you discuss this issue with your customer service representative.

How can I complain?

If you have a complaint about the product, the manufacturer of the product or the person who recommended or sold the product to you, please speak to your client advisor or contact us at www.ubs.com/fml-policies
