The sales prospectus, the PRIIPs KID (Packaged Retail and Insurance-based Investment Products Key Information Document), management regulations, annual and semi-annual reports as well as the portfolio movements of the Fund mentioned in this publication are available free of charge at the sales agencies and at the registered office of the Management Company.

# Features of the Fund

The Fund is a public limited company (société anonyme) incorporated under the laws of the Grand Duchy of Luxembourg as an investment Fund with variable share capital (société d'investissement à capital variable). The Fund is subject to Part I of the Luxembourg law of 17 December 2010 relating to undertakings for collective investment, as amended or supplemented from time to time.

The Fund is a single legal entity incorporated as an umbrella fund comprised of separate subfunds. Shares in the Fund are shares in a specific subfund. The Fund may issue Shares of different Share Classes in each subfund. Such Share Classes may each have specific characteristics. Certain Share Classes may be reserved to certain categories of investors. Investors should refer to the Prospectus for further information on characteristics of Share Classes.

The Fund has been incorporated in Luxembourg on 4 November 2022. The Fund is registered with the Luxembourg Trade and Companies Register under number B272 775. The latest version of the Articles of Association was published in the *Recueil Electronique des Sociétés et Associations* of the Grand Duchy of Luxembourg (*RESA*) on 17 November 2022.

The capital of the Fund is at all times equal to the value of its net assets.

The Board of Directors may, at any time, create additional subfunds whose investment objectives or other features may differ from those of the subfunds then existing.

Each subfund is treated as a separate entity and operates independently, each portfolio of assets being invested for the exclusive benefit of the subfund concerned. A purchase of Shares relating to one particular subfund does not give the holder of such Shares any rights with respect to any other subfund.

Within a subfund, the Board of Directors may decide to issue one or more Classes, which assets will be commonly invested but subject to different fee structures, distribution, marketing targets, currency or other specific features as further set out in the relevant Special Section in the Prospectus and/or the Articles. A separate Net Asset Value per Share, which may differ as a consequence of these variable factors, will be calculated for each Class. Upon creation of new Classes, the Prospectus will be updated, if necessary.

The Fund has been incorporated with an unlimited duration.

As at 31 December 2024, the following subfunds are active:

VALORI SICAV	Currency
– Elite Equity Fund	EUR
– Global Flexible Bond	EUR
– Hearth Ethical Fund	EUR
– Subordinated Debt Fund	EUR
– Tikehon Global Growth & Income Fund	EUR

The Fiscal Year begins on 1 January and ends on 31 December of each year.

The annual and semi-annual reports are prepared based on the information from the sales prospectus in force at the closing date of the report.

The Reference Currency of the Fund is EUR.

Only the information contained in the sales prospectus and in one of the documents referred to therein shall be deemed to be valid.

The figures stated in this report are historical and not necessarily indicative of future performance.

No subscription may be accepted on the basis of the financial reports. Subscriptions are accepted only on the basis of the current prospectus accompanied by the latest annual report and the latest semi-annual report if available.

VALORI SICAV – Elite Equity Fund\*\*
VALORI SICAV – Global Flexible Bond\*\*
VALORI SICAV – Hearth Ethical Fund\*\*
VALORI SICAV – Subordinated Debt Fund\*\*

\*\* The periodic disclosure at the date of the financial year end for this subfund is presented in the Appendix 5 of this annual report.

The periodic disclosure is the one referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852, and/or (if any), referred to in Article 9, paragraphs 1 to 4a, of Regulation (EU) 2019/2088 and Article 5, first paragraph, of Regulation (EU) 2020/852.

# **Investment Manager Report**

#### **VALORI SICAV - Elite Equity Fund**

The year 2024 presented a complex and multifaceted landscape for global equity markets, marked by a combination of resilience in some areas and difficulties in others. The United States maintained its leadership thanks to strong corporate earnings and the transformative impact of technological innovations, particularly in the artificial intelligence sector. Conversely, Europe faced significant challenges, with weak economic growth—especially in Germany and the Eurozone—negatively impacting stock market performance.

Despite these challenges, major European indices still closed the year in positive territory. The STOXX Europe 600 recorded a +5.98% increase, the EURO STOXX 50 gained +8.28%, while the UK's FTSE 100 advanced by +5.69%. Across the Atlantic, U.S. markets outperformed on a global scale: the Dow Jones rose by +12.88%, the S&P 500 posted a +23.31% increase, and the Nasdaq registered an impressive +28.64% growth.

Investor sentiment throughout 2024 was highly volatile, influenced by evolving monetary policies, corporate earnings trends, and global macroeconomic conditions. The fourth quarter saw a strengthening of U.S. equity markets following Donald Trump's victory in the presidential elections. The Federal Reserve cut interest rates by 25 basis points in both November and December, but a sell-off occurred in the last month of the year when the central bank scaled back expectations for further rate cuts in 2025.

In Europe, however, Q4 was marked by greater uncertainty, fuelled by recession fears and political instability in key countries such as France and Germany. Moreover, Trump's election reignited concerns about potential trade wars, increasing investor caution. The European Central Bank (ECB) reduced interest rates by 25 basis points in October and December, with President Christine Lagarde hinting at the possibility of further cuts in 2025.

Overall, the volatility in global equity markets in 2024 was driven by a combination of complex macroeconomic factors, regional uncertainties, and monetary policy decisions. However, volatility indices such as the VIX (U.S.) and VSTOXX (Europe) remained below crisis levels, suggesting a context of uncertainty but not panic.

Looking ahead, 2025 is expected to be a pivotal year, with investors needing to closely monitor central bank decisions, geopolitical developments, and the continuation of the global economic cycle.

The VALORI SICAV – Elite Equity Fund participation in the upward movement of global equity markets was driven by our strategy, which focused on capital appreciation, greater portfolio resilience during periods of heightened volatility, and consistent income flow. The current market environment has presented historically attractive valuations for high-dividend stocks, making them, in our view, an interesting option compared to the broader market. Our active investment management approach has resulted in the construction of a portfolio of sustainable dividend-paying stocks, maintaining high yields while reducing concentration risks in specific countries, sectors, or investment styles.

#### **VALORI SICAV – Global Flexible Bond**

In 2024, the fixed income market experienced a complex phase, shaped by significant economic and political dynamics. The first half of the year saw widespread disinflation, prompting central banks to begin normalizing monetary policies during the summer. However, in the second half of the year, expectations for further rate cuts were scaled back, particularly outside Europe, due to resilient economic growth and persistent inflation.

In this context, the global bond index delivered a negative performance of -1.78%, with global government bonds recording a -3.1% return for the year. Underperformance was more evident in the U.S. compared to Europe. It was a very strong year for credit spreads, with global spread compression pushing high-yield bonds to be the best-performing sector for the fourth consecutive year, supported by low default rates and attractive absolute yields. This resulted in significant inflows into spread markets.

On the other hand, government bond markets were dominated by volatility, with an aggressive rise in yields (from an initial expectation of seven rate cuts down to just one), a sharp decline in the middle of the year, followed by a strong rebound in yields as ratecut expectations dropped from four to one. Central banks began cutting rates both in the U.S. and Europe but significantly reduced future easing expectations.

The subfund posted a +5.74% performance. The year was particularly favourable for fixed income, especially in credit and emerging markets, while other bond segments performed less positively. The subfund maintained a balanced approach across its different portfolio "books," slightly overweighting subordinated debt, high yield, hybrids, and investment-grade corporates while underweighting U.S. high yield, convertibles, and local markets. Duration was actively managed between 4.5 and 7 years, with a strong bias toward European bonds over U.S. bonds.

Toward the end of the year, the subfund increased its allocation to peripheral European sovereign bonds, particularly after the volatility triggered by the French elections. Exposure to France was increased through government bonds and high-/mid-quality financial and hybrid names. In emerging markets, a highly selective approach was maintained, favouring widerspread bonds and short-duration local debt.

In the final part of the year, the portfolio was positioned to favour investment-grade corporate and sovereign bonds offering attractive spreads. Looking ahead to 2025, we anticipate a generalized decline in government bond yields, particularly in Europe, though the path is expected to be volatile. Credit spreads are likely to remain broadly stable, ensuring an attractive carry within a buy-and-hold strategy.

#### **VALORI SICAV – Hearth Ethical Fund**

The year 2024 presented a complex and multifaceted landscape for global equity markets, marked by a combination of resilience in some areas and difficulties in others. The United States maintained its leadership thanks to strong corporate earnings and the transformative impact of technological innovations, particularly in the artificial intelligence sector. Conversely, Europe faced significant challenges, with weak economic growth—especially in Germany and the Eurozone—negatively impacting stock market performance.

Despite these challenges, major European indices still closed the year in positive territory. The STOXX Europe 600 recorded a +5.98% increase, the EURO STOXX 50 gained +8.28%, while the UK's FTSE 100 advanced by +5.69%. Across the Atlantic, U.S. markets outperformed on a global scale: the Dow Jones rose by +12.88%, the S&P 500 posted a +23.31%

increase, and the Nasdaq registered an impressive +28.64% growth.

Investor sentiment throughout 2024 was highly volatile, influenced by evolving monetary policies, corporate earnings trends, and global macroeconomic conditions. The fourth quarter saw a strengthening of U.S. equity markets following Donald Trump's victory in the presidential elections. The Federal Reserve cut interest rates by 25 basis points in both November and December, but a sell-off occurred in the last month of the year when the central bank scaled back expectations for further rate cuts in 2025.

In Europe, however, Q4 was marked by greater uncertainty, fueled by recession fears and political instability in key countries such as France and Germany. Moreover, Trump's election reignited concerns about potential trade wars, increasing investor caution. The European Central Bank (ECB) reduced interest rates by 25 basis points in October and December, with President Christine Lagarde hinting at the possibility of further cuts in 2025.

Overall, the volatility in global equity markets in 2024 was driven by a combination of complex macroeconomic factors, regional uncertainties, and monetary policy decisions. However, volatility indices such as the VIX (U.S.) and VSTOXX (Europe) remained below crisis levels, suggesting a context of uncertainty but not panic.

Looking ahead, 2025 is expected to be a pivotal year, with investors needing to closely monitor central bank decisions, geopolitical developments, and the continuation of the global economic cycle.

The VALORI SICAV – Hearth Ethical Fund participation in the upward movement of global equity and bond markets was driven by the benefits of our strategy, which focused on a dynamic approach to asset class exposure.

On the fixed income side, we consistently maintained a conservative exposure to developed market government bonds, with a predominantly tactical approach to duration management. A constructive approach was implemented in the credit segment, primarily within the Eurozone, where we consistently held exposure to subordinated bonds.

Regarding equities, we adopted a cautious stance in the first half of the year due to concerns about a potential recession in the United States. However, as macroeconomic data remained solid and recession fears dissipated in the second half of the year, we implemented a more constructive strategy, increasing our equity exposure levels.

#### **VALORI SICAV – Subordinated Debt Fund**

In 2024, the fixed income market experienced a complex phase, shaped by significant economic and political dynamics. The first half of the year saw widespread disinflation, prompting central banks to begin normalizing monetary policies during the summer. However, in the second half of the year, expectations for further rate cuts were scaled back, particularly outside Europe, due to resilient economic growth and persistent inflation. This environment led global government bonds to record a -3.1% return in 2024.

Despite challenges related to duration, credit markets performed more solidly. High-yield bonds emerged as the best-performing sector for the fourth consecutive year, driven by low default rates and attractive absolute yields.

The year was also marked by a return to negative correlation between stocks and bonds, signalling what many consider the peak of the interest rate cycle. After a post-Covid period dominated by rising inflation and interest rates, this trend reversed in 2024.

Overall, investor demand for bonds remained strong, with global inflows exceeding \$600 billion. This renewed interest was fuelled by the highest yields in decades and expectations of interest rate cuts by central banks.

Bond investors remain cautious, preparing for heightened volatility due to uncertainty over economic policies and the Federal Reserve's stance. While the economy and labour market remain strong, risks persist, particularly regarding inflation and fiscal policy, given the projected increase in the U.S. fiscal deficit and the resulting Treasury issuance.

The VALORI SICAV – Subordinated Debt Fund in the year 2024, benefitted from a favourable environment for subordinated bonds. The market absorbed a steady flow of new issuances, issuers exercised call options, and spreads tightened, except for a volatile period between February and March, when concerns

over U.S. commercial real estate led to market fluctuations. Another bout of volatility followed the unexpected announcement of French elections, which had a negative impact beyond France's borders.

Interest rate volatility, driven by shifting expectations for Fed rate cuts, influenced the subfund's operations. The subfund maintained a consistent allocation across its three main asset classes but adapted to market conditions by taking advantage of rate declines with AT1 low-coupon bonds and medium-duration positions, focusing on quality names in T2 and Hybrid bonds, reducing overall duration during periods of rate pressure, shifting towards bonds with nearer call dates and higher coupons, and seeking recovery opportunities in Real Estate, German banks, Dutch insurance companies, and Italian financial institutions.

With spread compression losing momentum, alpha generation will be the key challenge in 2025. This will require rigorous credit analysis and selection, as the sector continues to demonstrate strong financial results and robust balance sheet structures.

# VALORI SICAV – Tikehon Global Growth & Income Fund

The year 2024 was remarkable for risk assets. The strength of the United States drove significant returns for developed market equities, while a rally in Chinese stocks and strong performances from India and Taiwan led to solid returns in emerging markets. Global growth stocks outperformed for the second consecutive year, driven by U.S. mega-cap technology companies. Commodities, however, experienced a decline due to weak Chinese demand, whereas gold delivered strong returns amid fiscal concerns in many countries. Persistent growth and inflation tempered expectations for rapid interest rate cuts, causing global investment-grade bonds to post negative returns due to a stronger U.S. dollar and rising yields.

In the United States, GDP growth remained solid in 2024, whereas Europe's economic momentum weakened. The manufacturing sector struggled with high energy costs, burdensome regulations, and weak export demand. In Asia, Chinese economic activity remained sluggish, but Chinese equities rallied in the second half of the year. Meanwhile, Japanese equities posted strong gains, supported by optimism over the end of deflation and corporate governance reforms.

Overall, investors benefited from the enthusiasm surrounding Al and stronger-than-expected U.S. economic performance. However, looking ahead to 2025, the key question remains whether the U.S. can continue to outperform given already elevated valuations.

The VALORI SICAV – Tikehon Global Growth & Income Fund was merged on the VALORI SICAV last 20 December 2024.

### Independent auditor's report

To the Shareholders of VALORI SICAV 33A, avenue John F. Kennedy L-1855 Luxembourg

#### Opinion

We have audited the financial statements of VALORI SICAV (the "Fund") and of each of its sub-funds, which comprise the statement of net assets, the statement of investments in securities and other net assets and the derivative instruments as at 31 December 2024, and the statement of operations and the statement of changes in net assets for the year then ended, and the notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Fund and of each of its sub-funds as at 31 December 2024 and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

#### **Basis for Opinion**

We conducted our audit in accordance with the Law of 23 July 2016 on the audit profession (the "Law of 23 July 2016") and with International Standards on Auditing ("ISAs") as adopted for Luxembourg by the "Commission de Surveillance du Secteur Financier" ("CSSF"). Our responsibilities under the Law of 23 July 2016 and ISAs as adopted for Luxembourg by the CSSF are further described in the "responsibilities of the "réviseur d'entreprises agréé" for the audit of the financial statements" section of our report. We are also independent of the Fund in accordance with the International Code of Ethics for Professional Accountants, including International Independence Standards, issued by the International Ethics Standards Board for Accountants ("IESBA Code") as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the financial statements, and have fulfilled our other ethical responsibilities under those ethical requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### Other information

The Board of Directors of the Fund is responsible for the other information. The other information comprises the information included in the annual report but does not include the financial statements and our report of the "réviseur d'entreprises agréé" thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report this fact. We have nothing to report in this regard.

#### Responsibilities of the Board of Directors of the Fund for the financial statements

The Board of Directors of the Fund is responsible for the preparation and fair presentation of these financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements, and for such internal control as the Board of Directors of the Fund determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors of the Fund is responsible for assessing the Fund's and each of its sub-funds' ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors of the Fund either intends to liquidate the Fund or any of its sub-funds or to cease operations, or has no realistic alternative but to do so.

#### Responsibilities of the "réviseur d'entreprises agréé" for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue a report of the "réviseur d'entreprises agréé" that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are
  appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's
  internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors of the Fund.
- Conclude on the appropriateness of the Board of Directors of the Fund's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's or any of its sub-funds' ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our report of the "réviseur d'entreprises agréé" to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our report of the "réviseur d'entreprises agréé". However, future events or conditions may cause the Fund or any of its sub-funds to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and
  whether the financial statements represent the underlying transactions and events in a manner that achieves fair
  presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

# Notes to the Financial Statements

# Note 1 – Summary of the significant accounting policies

The financial statements have been prepared in accordance with the generally accepted accounting principles for investment fund in Luxembourg. The significant accounting policies are summarised as follows:

## a) Calculation of the Net Asset Value (NAV)

The Net Asset Value of each Class in each subfund is being calculated in the Reference Currency of the subfund or Class in good faith in Luxembourg on each Valuation Day as stipulated in the relevant Special Section. The Fund may, at its discretion, calculate an estimated Net Asset Value in respect of days which are not Valuation Days. The said estimated Net Asset Value cannot be used for subscription, redemption or conversion purposes and will be calculated for information only. Furthermore, exceptionally and upon the decision of the Board of Directors, the Fund may decide to calculate an exceptional Net Asset Value for the specific purposes of subscription, redemption or conversion.

The Net Asset Value will be calculated and rounded to two (2) decimal numbers.

# b) Valuation principles

- the value of any cash in hand or on deposit, notes and bills payable on demand and accounts receivable (including reimbursements of fees and expenses payable by any Target Fund or target portfolio Fund in which the Fund may invest), prepaid expenses and cash dividends declared and interest accrued but not yet collected, will be deemed the nominal value of these assets unless it is improbable that it can be paid and collected in full; in which case, the value will be arrived at after deducting an amount determined in accordance with procedures approved by the Board of Directors;
- securities listed on an official stock exchange or dealt on any other organised market will be valued at their last available price in Luxembourg on the Valuation Day and, if the security is traded on several markets, on the basis of the last known price on the main market of this security. If the last known price is not representative, valuation will be based on the fair value at which it is expected it can be sold, as determined with prudence and in good faith in accordance with procedures approved by the Board of Directors;

- unlisted securities or securities not traded on a stock exchange or any other Regulated Market as well as listed securities or securities not listed on a Regulated Market for which no price is available, or securities whose quoted price is, in the opinion of the Board of Directors, not representative of actual market value, will be valued at their last known price in Luxembourg or, in the absence of such price, on the basis of their probable realisation value, as determined with prudence and in good faith in accordance with procedures approved by the Board of Directors;
- the liquidation value of futures, forward or options contracts that are not traded on stock exchanges or other Regulated Markets will be equal to their net liquidation value determined in accordance with the policies approved by the Board of Directors on a basis consistently applied to each type of contract. The liquidation value of futures or options contracts traded on stock exchanges or other Regulated Markets will be based on the latest available price for these contracts on the stock exchanges and Regulated Markets on which these options or futures contracts are traded by the Fund; provided that if an options or futures contract cannot be liquidated on the date on which the net assets are valued, the basis for determining the liquidation value of said contract will be determined in accordance with procedures approved by the Board of Directors in a fair and reasonable manner;
- swaps are valued at their fair value based on the last known closing price of the underlying security;
- Target Funds are valued on the basis of the last official or estimated net asset value in Luxembourg, as set out below. In the context of subfunds which invest in other Target Funds, valuation of their assets may be complex in some circumstances and the administrative agents of such Target Funds may be late or delay communicating the relevant official net asset values. With the approval of the Board of Directors and under their supervision, the Administrative Agent may use, on the Valuation Day, estimated net asset values provided by the administrative agents or managers of the said Target Funds if these are more recent than their available official net asset values. In this case, the Net Asset Value thus determined for the subfunds concerned may be different from the value that would have been calculated on the Valuation Day using the official net asset values calculated by the administrative agents of the Target Funds in which the subfund invested. Nevertheless, Net Asset Values calculated on the basis of estimated net asset values will

be considered as final and applicable despite any future divergence;

- the value of money market instruments which are not listed on a stock exchange or traded on another regulated market open to the public is based on the appropriate curves. The valuation based on the curves refers to the interest rate and credit spread components. The following principles are applied in this process: for each money market instrument, the interest rates nearest the residual maturity are interpolated. The interest rate calculated in this way is converted into a market price by adding a credit spread that reflects the underlying borrower. This credit spread is adjusted if there is a significant change in the credit rating of the borrower;
- any other securities and assets are valued in accordance with the procedures put in place by the Board of Directors and with the help of specialist valuers or an External Valuer, as the case may be, who will be instructed to carry out these valuations.

If one or more sources of quotation are not able to provide relevant valuations to the Administrative Agent or, if for any reason, the value of any asset of the Fund may not be determined as rapidly and accurately as required, the Board of Directors may decide to suspend the Net Asset Value calculation and authorise the Administrative Agent not to calculate the Net Asset Value and, consequently, not to determine subscription, redemption and conversion prices.

Securities denominated in a currency other than the relevant subfund's Reference Currency will be converted at the average exchange rate of the currency concerned applicable on the Valuation Day.

In circumstances where the interests of the Fund or its Shareholders so justify (avoidance of market timing practices, for example), the Board of Directors may take any appropriate measures, such as applying a fair value pricing methodology to adjust the value of the assets of the Fund.

The Management Company is authorized to apply other generally recognized and auditable valuation criteria chosen in good faith in order to achieve an appropriate valuation of the net asset value if, due to extraordinary circumstances, a valuation in accordance with the above-mentioned regulations proves to be unfeasible or inaccurate.

In the case of extraordinary circumstances, additional valuations, which will affect the prices of the shares to

be subsequently issued or redeemed, may be carried out within one Valuation Day.

In the case of extensive redemption applications, the value of the shares of the relevant subfund may be established on the basis of the prices at which the necessary sales of securities are effected. In such an event, the same basis for calculation shall be applied for issue and redemption applications submitted at the same time. The Investors in the Fund acknowledge and consent to liquidity risks which arise when a particular security, private equity and infrastructure investments is difficult to dispose of. Due to this fact it may be difficult or even impossible to sell particular investments held by the Fund at the required time during certain phases or in particular exchange segments. There is also the risk that (i) either the investments in the Fund are traded in a rather tight market segment and may be thus subject to significant price volatility or (ii) the target fund investment in the Fund cannot be redeemed within the redemption time as foreseen for the Fund.

c) Net realized gain (loss) on sales of securities The realized gains or losses on the sales of securities are calculated on the basis of the average cost of the securities sold.

d) Valuation of forward foreign exchange contracts
The unrealized gain (loss) of outstanding forward
foreign exchange contracts is valued on the basis of
the forward exchange rates prevailing at valuation
date.

# e) Valuation of financial futures contracts

Financial futures contracts are valued based on the latest available published price applicable on the valuation date. Realized gains and losses and the changes in unrealized gains and losses are recorded in the statement of operations. The realized gains and losses are calculated in accordance with the FIFO method, i.e. the first contracts acquired are regarded as the first to be sold.

f) Accounting of securities' portfolio transactions
The securities' portfolio transactions are accounted for
the bank business day following the transaction dates.

# g) Conversion of foreign currencies

Bank accounts, other net assets and the valuation of the investments in securities held denominated in currencies other than the currency of account of the different subfunds are converted at the mid closing spot rates on the valuation date. Income and expenses denominated in currencies other than the currency of the different subfunds are converted at the mid closing spot rates at payment date. Gain or loss on foreign exchange is included in the statement of operations.

The cost of securities denominated in currencies other than the currency of account of the different subfunds is converted at the mid closing spot rate prevailing on the day of acquisition.

#### h) Combined financial statements

The combined financial statements of the Fund are expressed in EUR. The various items of the combined statement of net assets, combined statement of operations and the combined statement of changes in net assets as of 31 December 2024 of the Fund are equal to the sum of the corresponding items in the financial statements of each subfund.

# i) Receivable on securities sales, Payable on securities purchases

The position "Receivable on securities sales" can also include receivables from foreign currency transactions. The position "Payable on securities purchases" can also include payables from foreign currency transactions.

Receivables and payables from foreign exchange transactions are netted.

# j) Income recognition

Dividends, net of withholding taxes, are recognized as income on the date upon which the relevant securities are first listed as "ex-dividend". Interest income is accrued on a daily basis.

# k) Formation expenses

Expenses incurred in connection with the incorporation of the Fund and creation of any subfund will be written off over a period of five (5) years.

# Note 2 – Fees and Expenses

### 2.1 Subscription Fee and Redemption Fee

Subscriptions for Shares may be subject to a Subscription Fee and redemptions of Shares may be subject to a Redemption Fee both calculated as specified in the Prospectus, where applicable. Conversions of Shares may be subject to a Conversion Fee calculated as specified in the Prospectus, where applicable. For the avoidance of doubt, no Subscription Fee or Redemption Fee

will apply on conversions in addition to the Conversion Fee, if any. The Subscription Fee will either be paid directly to the Fund or may also be paid in whole or in part to the Distributor(s) or any intermediary acting in relation to the distribution of Shares. No different rates of the Subscription Fee or Redemption Fee will apply for subscriptions or redemptions of the same Subscription Day or Redemption Day.

In case the amount of the redemption leads to a rebalancing of the portfolio and additional workload is required to the investment manager, the Redemption Fee will be paid to the Investment Manager and/or the subfund upon request and/or approval of the Board of Directors for the respective subfund. The Fund may pay all or part of such fees received to the Distributors as commissions or other fee arrangements. The Fund may in its discretion waive all or part of the Subscription Fee, Redemption Fee or Conversion Fee.

# 2.2 Management Company Fee

The Management Company will be entitled to a Management Company Fee for Management Company and Fund Administration services equal to a percentage of the Net Asset Value of each subfund or Share Class subject to a minimum fee per subfund or Share Class. The Management Company fee will be calculated on the Net Asset Value of each subfund, subject to a maximum rate of 8.50 bps p.a. and subject to a minimum annual fee per subfund of 30 000 EUR p.a. in year 1 after the launch and EUR 50 000 p.a. from year 2 after the launch onwards. The Management Company Fee will be calculated by reference to the Net Asset Value of each subfund calculated on each Valuation Day and be payable on a monthly basis in arrears. The Management Company will also be entitled to reimbursement of reasonable out-of-pocket expenses properly incurred in carrying out its duties. These fees will be paid directly out of the respective subfund's assets to the Management Company.

The Management Company Fee covers the fees in relation with the Risk Management and the Fund Administration and Transfer Agency, in addition to the supervision of the delegated functions. For the avoidance of doubt, the Management Company Fee does not cover investment management, depositary as well as domiciliation and corporate secretary services, marketing and distribution services performed respectively by the Investment Manager, the Depositary, the Domiciliation and Corporate Secretary Agent and the Distributor(s).

#### 2.3 Investment Manager Fee

The Investment Manager is entitled to receive from the Fund a customary fee equal to a percentage of the Net Asset Value of each subfund or Share Class, as set out in the Prospectus for each subfund or Share Class. The Investment Manager fee will be calculated by reference to the Net Asset Value of each subfund or Share Class and will accrue on each Valuation Day and will be payable monthly in arrears out of the assets of each subfund. The Investment Manager may from time to time, at its sole discretion, decide to waive all or part of its fee.

#### 2.4 Investment Research Services

In view of having a carefully chosen selection of appropriate (ESG) investment research services, competitively priced and assessed in terms of their benefit to specific individual investment strategies, the Investment Manager set a Research Payment Account ("RPA"). It is generally not expected that the research budget applicable to the RPA will exceed EUR 190 000 per annum. In particular, Sustainalytics B.V., a private Fund with limited liability, incorporated under the laws of the Netherlands, the ESG data service provider, is entitled to receive a fixed fee of EUR 53 600 out of the RPA in consideration of its services (mainly including ESG research and independent ESG audits) (the "ESG Data Provider Fee"). The ESG Data Provider Fee will be paid by each subfund promoting environmental and/or social characteristics or pursuing a sustainable objective in proportion to their respective assets under management.

# 2.5 Fees of the Depositary and the Paying Agent

The Depositary and Paying Agent will be entitled to receive out of the assets of each subfund a fee equal to a percentage of the Net Asset Value of each subfund or Share Class subject to a minimum fee per subfund or Share Class.

The Depositary fee will be calculated on the Net Asset Value of each subfund, subject to a maximum rate of 4.25 bps p.a. and subject to a minimum of maximum 15 000 EUR p.a. per subfund. The Depositary fee is charged to the subfunds on a pro rata basis on each Valuation Day and paid on a monthly basis in arrears to the Depository out of the subfund's assets. Further fees may be payable to the Depositary in consideration of ancillary services rendered to the subfunds and relating to the core services of the Depositary. These fees will be paid directly out of the relevant

subfund's assets to the Depositary. The Depositary will also be entitled to transaction fees charged on the basis of the investments made by each subfund consistent with market practice in Luxembourg. Fees paid to the Depositary may vary depending on the nature of the investments of each subfund and the countries and/or markets in which the investments are made. The Depositary will also be entitled to reimbursement of reasonable out-of-pocket expenses properly incurred in carrying out its duties upon approval by the Management Company.

#### 2.6 Fees of the Distributors

To the extent permitted under applicable laws and regulations, the Distributor(s) may be entitled to receive a fee in consideration of the marketing and distribution of certain subfunds or Share Classes. The Distributor fee will accrue on each Valuation Day within the Investment Manager Fee as mentioned under section 6.4 of the Prospectus and will be payable monthly in arrears out of the assets of each subfund.

# 2.7 Administrator and Transfer Agent Fee

The Administrator and Transfer Agent will be paid by the Management Company out of the Management Company Fee.

# 2.8 Directors' fees and expenses

The members of the Board of Directors are entitled to receive a fee in consideration for their function. The Fund will also reimburse the members of the Board of Directors for appropriate insurance coverage and expenses and other costs incurred by the members of the Board of Directors in the performance of their duties, including reasonable out-of-pocket expenses, traveling costs incurred to attend meetings of the Board of Directors, and any costs of legal proceedings unless such costs are caused by intentional or grossly negligent conduct by the member of the Board of Directors in question. The Fund may also pay fees and expenses to members of any committee established by the Board of Directors, where applicable.

# 2.9 Operating and Administrative Expenses

The Fund bears all ordinary operating costs and expenses incurred in the operation of the Fund or any subfund or Share Class ("Operating and Administrative Expenses") including but not limited to costs and expenses incurred in connection with:

- preparing, producing, printing, depositing, publishing and/or distributing any documents relating to the Fund, a subfund or Share Class that are required by applicable laws and regulations (such as the Articles of Association, Prospectus, key investor information documents, financial reports (including, but not limited to, the Annual Report) and notices to investors) or any other documents and materials made available to investors (such as explanatory memoranda, statements, reports, factsheets and similar documents, etc.);
- any fees incurred by service providers of the Fund in relation to the establishment and launch of the Fund and/or any subfund (Formation Expenses);
- organising and holding general meetings of shareholders and preparing, printing, publishing and/or distributing notices and other communications to shareholders;
- professional advisory services (such legal, tax, accounting, compliance, auditing and other advisory services) taken by the Fund or the Management Company on behalf of the Fund;
- 5) investment services taken and/or data obtained by the Fund or the Management Company on behalf of the Fund (including fees and expenses incurred in obtaining investment research, systems and other services or data utilised for portfolio and risk management purposes);
- 6) the authorisation of the Fund, the subfunds and Share Classes, regulatory compliance obligations and reporting requirements of the Fund (such as administrative fees, filing fees, insurance costs and other types of fees and expenses incurred in the course of regulatory compliance), and all types of insurance obtained on behalf of the Fund and/or the members of the Board of Directors;
- 7) initial and ongoing obligations relating to the registration and/or listing of the Fund, a subfund or Share Class and the distribution of Shares in Luxembourg and abroad (such as fees charged by and expenses payable to financial regulators, distributors, correspondent banks, representatives, listing agents, paying agents, fund platforms, and other agents and/or service providers appointed in this context, as well as advisory, legal, and translation costs);
- due diligence fees and fees for the update of procedures charged by the Management Company to the Fund;
- fees for MLRO and UBO services provided and charged by the Management Company (where applicable);
- 10) fees for domiciliation and corporate secretary services;

- 11) any other fees related to professional services provided to the Fund such as securities lending, proxy voting, etc., where applicable;
- 12) the determination and publication of tax factors for the EU/EEA Member States and/or any other countries where distribution licences and/or private placements exist, according to the actual expenditure incurred at market rates;
- 13) memberships or services provided by international organisations or industry bodies such as the Association of the Luxembourg Fund Industry (ALFI);
- 14) taxes, charges and duties payable to governments and local authorities (including the Luxembourg annual subscription tax (taxe d'abonnement) and any other taxes payable on assets, income or expenses) and any value added tax (VAT) or similar tax associated with any fees and expenses paid by the Fund;
- 15) the reorganisation or liquidation of the Fund, a subfund or Share Class; and
- 16) costs of operational management and supervision of the Fund's business activity, sales support, licence fees.

## 2.10 Formation expenses

The fees and expenses incurred in connection with the formation of the Fund will be borne by the Fund and may be amortised over a period of up to five (5) years from the date of incorporation of the Fund. The formation expenses of each new subfund will be borne by such subfund and may be amortised over a period of up to five (5) years. New subfunds created after the incorporation and launch of the Fund will participate in the non-amortised formation expenses of the Fund.

# Note 3 – Performance Fee

The Investment Manager may be entitled to receive a Performance Fee with respect to certain subfunds or Share Classes. The payment and size of the Performance Fee depends on the performance of the subfund or Share Class over a specified time period. The Performance Fee is calculated and accrued at each Valuation Day on the basis of the Net Asset Value after deducting all fees and expenses, including the Management Company Fee and the Investment Manager Fee (but not the Performance Fee) and adjusting for subscriptions and redemptions during the performance period so these will not affect the calculation of the Performance Fee. The Performance Fee is paid out of the assets of the Fund to the Management Company and allocated to the relevant

subfunds and Share Classes. The Management Company will pay such fee to the Investment Manager.

For the period ending 31 December 2024 the following performance fees have been accrued:

VALORI SICAV	Share class	Perfor- mance fee paid	Currency	Percentage of average assets
		EUR		assets
– Elite Equity Fund	B-EUR	44 526.78	EUR	1.17%
– Elite Equity Fund	CG-EUR	619 274.33	EUR	1.16%
– Global Flexible Bond	A-EUR	245 339.93	EUR	0.77%
– Global Flexible Bond	B-EUR	20 106.54	EUR	0.54%
– Global Flexible Bond	BH-CHF	10 714.65	EUR	0.38%
– Global Flexible Bond	C-EUR	42 451.92	EUR	0.46%
– Hearth Ethical Fund	A-EUR	234 837.73	EUR	0.88%
– Hearth Ethical Fund	B-EUR	116 194.89	EUR	0.81%
– Hearth Ethical Fund	BH-CHF	6 828.56	EUR	0.70%
– Hearth Ethical Fund	CG-EUR	131 993.12	EUR	0.96%
– Subordinated Debt Fund	A-EUR	7 084.52	EUR	1.47%
– Subordinated Debt Fund	B-EUR	225 230.93	EUR	1.03%
– Subordinated Debt Fund	BH-CHF	3 036.25	EUR	0.71%
– Subordinated Debt Fund	C-EUR	135 460.50	EUR	1.15%

# Note 4 – Taxe d'abonnement

In accordance with the law and the regulations currently in force, the Fund is subject in Luxembourg to the subscription tax at the annual rate of 0.05%, or a reduced taxe d'abonnement amounting to 0.01% p.a. for some share classes, payable quarterly and calculated on the basis of its net assets at the end of each quarter.

The taxe d'abonnement is waived for that part of the net assets invested in units or shares of other undertakings for collective investment that have already paid the taxe d'abonnement in accordance with the statutory provisions of Luxembourg law.

# Note 5 – Income Distribution

Each subfund may comprise distributing Shares and non-distributing Shares. The Prospectus shall indicate whether Shares confer the right to dividend distributions (Distribution Shares) or do not confer this right (Capitalisation Shares). Distribution Shares and Capitalisation Shares issued within the same subfund will be represented by different Share Classes.

Capitalisation Shares capitalise their entire earnings whereas Distribution Shares pay dividends. Whenever dividends are distributed to holders of Distribution Shares, their Net Asset Value per Share will be reduced by an amount equal to the amount of the dividend per Share distributed, whereas the Net Asset Value per Share of Capitalisation Shares will remain unaffected by the distribution made to holders of Distribution Shares.

The Fund shall determine how the earnings of Distribution Shares shall be distributed and may declare distributions from time to time, at such time and in relation to such periods as the Fund shall determine, in the form of cash, in accordance with the dividend distribution policy adopted for such Distribution Shares as described in the Prospectus.

The dividend distribution policy may vary between Distribution Shares within the same or different subfunds. Dividend distributions are not guaranteed with respect to any Share Class. In any event, no distribution may be made if, as a result, the total Net Asset Value of the Fund would fall below the minimum share capital required by the 2010 Law which is currently 1 250 000 EUR.

Unless otherwise requested by an investor, dividends will be paid in the form of cash and investors will be advised of the details by a dividend statement by the Administrator.

No interest shall be paid on dividend distributions declared by the Fund which have not been claimed. Dividends not claimed within five years of their declaration date will lapse and revert to the relevant Share Class. As of 31 December 2024, no distribution occurred.

# Note 6 - Commitments on Financial Futures

Commitments on Financial Futures per subfund and respective currency as of 31 December 2024 can be summarised as follows:

**Financial Futures** 

VALORI SICAV	Financial Futures on bonds (bought)	Financial Futures on bonds (sold)
– Global Flexible Bond	9 284 251.86 EUR	871 947.38 EUR

VALORI SICAV	Financial Futures on Indices (bought)	Financial Futures on Indices (sold)
– Global Flexible Bond	4 129 072.71 EUR	- EUR
– Hearth Ethical Fund	4 597 619.51 EUR	- EUR
– Subordinated Debt Fund	1 766 837.57 EUR	- EUR

The commitments on Financial Futures on bonds or index (if any) are calculated based on the market value of the Financial Futures (Number of contracts\*notional contract size\*market price of the futures).

## Note 7 - Total Expense Ratio (TER)

This ratio was calculated in accordance with the Asset Management Association Switzerland (AMAS) "Guidelines on the calculation and disclosure of the TER" in the current version and expresses the sum of all costs and commissions charged on an ongoing basis to the net assets (operating expenses) taken retrospectively as a percentage of the net assets.

TER for the last 12 months:

VALORI SICAV	Total Expense Ratio (TER)	thereof Performance fee
– Elite Equity Fund B-EUR	2.67%	1.17%
– Elite Equity Fund CG-EUR	2.66%	1.16%
– Global Flexible Bond A-EUR	2.21%	0.77%
– Global Flexible Bond B-EUR	1.73%	0.54%
– Global Flexible Bond BH-CHF	0.95%	0.38%
– Global Flexible Bond C-EUR	2.47%	0.46%
– Hearth Ethical Fund A-EUR	2.98%	0.88%
– Hearth Ethical Fund B-EUR	2.36%	0.81%
– Hearth Ethical Fund BH-CHF	2.25%	0.70%
– Hearth Ethical Fund CG-EUR	2.50%	0.96%
– Subordinated Debt Fund A-EUR	3.13%	1.47%
– Subordinated Debt Fund B-EUR	2.30%	1.03%
– Subordinated Debt Fund BH-CHF	2.01%	0.71%
– Subordinated Debt Fund C-EUR	3.27%	1.15%
– Tikehon Global Growth & Income Fund B-EUR	1.14%	0.00%
– Tikehon Global Growth & Income Fund BH-CHF	1.14%	0.00%
– Tikehon Global Growth & Income Fund C-EUR	1.99%	0.00%
– Tikehon Global Growth & Income Fund S-EUR	0.54%	0.00%

TER for classes of shares which were active less than a 12 month period are annualised.

Transaction costs, interest costs, securities lending costs and any other costs incurred in connection with currency hedging are not included in the TER.

#### Note 8 - Portfolio Turnover Rate (PTR)

The portfolio turnover has been calculated as follows:

(Total purchases + total sales) – (total subscriptions + total redemptions)

Average of net assets during the period under review

The portfolio turnover statistics are the following for the period under review:

VALORI SICAV	Portfolio Turnover Rate (PTR)
– Elite Equity Fund	225.94%
– Global Flexible Bond	349.27%
– Hearth Ethical Fund	721.00%
– Subordinated Debt Fund	160.29%
– Tikehon Global Growth & Income Fund	-1.41%

#### Note 9 - Transaction costs

Transaction costs include brokerage fees, stamp duty, local taxes and other foreign charges if incurred during the fiscal year. Transaction fees are included in the cost of securities purchased and sold.

For the financial year ended on 31 December 2024, the Fund incurred transaction costs relating to purchase or sale of investments in securities and similar transactions, as follows:

VALORI SICAV	Transaction costs
– Elite Equity Fund	177 047.36 EUR
– Global Flexible Bond	66 633.61 EUR
– Hearth Ethical Fund	528 937.24 EUR
– Subordinated Debt Fund	28 961.19 EUR
– Tikehon Global Growth & Income Fund	- EUR

Not all transaction costs are separately identifiable. For fixed income investments, forward currency contracts and other derivative contracts, transaction costs will be included in the purchase and sale price of the investment. Whilst not separately identifiable these transaction costs will be captured within the performance of each subfund.

#### Note 10 - Subsequent events

There were no events after the year-end that require adjustment to or disclosure in the Financial Statements.

# Note 11 – Applicable law, place of performance and authoritative language

The Luxembourg District Court is the place of performance for all legal disputes between the Shareholders, the Management Company and the Depositary. Luxembourg law applies. However, in matters concerning the claims of investors from other countries, the Management Company and/or the Depositary can elect to make themselves and the Fund subject to the jurisdiction of the countries in which the Fund's shares were bought and sold.

The English version of these financial statements is the authoritative version and only this version was audited by the auditor. However, in the case of shares sold to investors from the other countries in which shares of the Fund can be bought and sold, the Management Company and the Depositary may recognize approved translations (i.e. approved by the Management Company and the Depositary) into the languages concerned as binding upon themselves and the Fund.

# Note 12 – OTC-Derivatives and Securities Lending

If the Fund enters into OTC transactions, it may be exposed to risks related to the creditworthiness of the OTC counterparties: when the Fund enters into futures contracts, options and swap transactions or uses other derivative techniques it is subject to the risk that an OTC counterparty may not meet (or cannot meet) its obligations under a specific or multiple contracts. Counterparty risk can be reduced by depositing a security. If the Fund is owed a security pursuant to an applicable agreement, such security shall be held in custody by the Depositary in favour of the Fund. Bankruptcy and insolvency events or other credit events with the OTC counterparty, the Depositary or within their subdepositary/correspondent bank network may result in the rights or recognition of the Fund in connection with the security to be delayed, restricted or even eliminated, which would force the Fund to fulfill its obligations in the framework of the OTC transaction, in spite of any security that had previously been made available to cover any such obligation.

The Fund may lend portions of its securities portfolio to third parties. In general, lendings may only be effected via recognized clearing houses such as Clearstream International or Euroclear, or through the intermediary of prime financial institutions that specialise in such activities and in the modus specified by them. Collateral is received in relation to securities lent. Collateral is composed of high quality securities in an amount typically at least equal to the market value of the securities loaned.

UBS Europe SE, Luxembourg Branch, acts as securities lending agent.

#### **OTC-Derivatives\***

The OTC-derivatives of the below subfunds with no collateral have margin accounts instead.

Subfund	Unrealized gain	Collateral	
Counterparty	(loss)	received	
VALORI SICAV – Global Flexible Bond			
UBS AG	-48 064.73 EUR	0.00 EUR	
UBS Europe SE	-87 450.26 EUR	0.00 EUR	
VALORI SICAV – Hearth Ethical Fund			
UBS AG	-576 862.22 EUR	0.00 EUR	
UBS Europe SE	780.25 EUR	0.00 EUR	
VALORI SICAV – Subordinated Debt Fund			
UBS AG	-124 813.71 EUR	0.00 EUR	
UBS Europe SE	-140 185.06 EUR	0.00 EUR	
VALORI SICAV – Tikehon Global Growth & Income Fund			
UBS AG	-4 580.08 EUR	0.00 EUR	

<sup>\*</sup> Derivatives traded on an official exchange are not included in this table as they are guaranteed by a clearing house. In the event of a counterparty default the clearing house assumes the risk of loss.

# **Securities Lending**

#### Counterparty Exposure from Securities Lending as of 31 December 2024\*

# Collateral Breakdown (Weight in %) as of 31 December 2024

VALORI SICAV	Market value of securities lent	Collateral (UBS Switzerland AG)	Equities	Bonds	Cash
– Elite Equity Fund	4 773 911.24 EUR	5 256 860.90 EUR	24.05	75.95	0.00
– Global Flexible Bond	7 279 478.51 EUR	8 037 865.81 EUR	53.27	46.73	0.00

<ul> <li>Subordinated Debt Fund</li> </ul>	8 824 944.04 EUR	9 677 502.74 EUR	54.05	45.95	0.00

<sup>\*</sup> The pricing and exchange rate information for the Counterparty Exposure is obtained directly from the securities lending agent on 31 December 2024 and hence, it might differ from the closing prices and exchange rates used for the preparation of the financial statements as of 31 December 2024.

	VALORI SICAV – Elite Equity Fund	VALORI SICAV – Global Flexible Bond	VALORI SICAV – Hearth Ethical Fund	VALORI SICAV – Subordinated Debt Fund
Securities Lending revenues	11 727.83 EUR	46 419.02 EUR	34 595.65 EUR	43 003.50 EUR
Securities Lending cost*				
UBS Switzerland AG	3 518.35 EUR	13 925.71 EUR	10 378.69 EUR	12 901.05 EUR
UBS Europe SE, Luxembourg Branch	1 172.78 EUR	4 641.90 EUR	3 459.57 EUR	4 300.35 EUR
Net Securities Lending revenues	7 036.70 EUR	27 851.41 EUR	20 757.39 EUR	25 802.10 EUR

<sup>\* 30%</sup> of the gross revenue are retained as costs/fees by UBS Switzerland AG acting as securities lending service provider and 10% are retained by UBS Europe SE, Luxembourg Branch acting as securities lending agent.

# Appendix 1 – Global Exposure (unaudited)

# Risk management

Risk management in accordance with the commitment approach and the value-at-risk approach is applied pursuant to the applicable laws and regulatory provisions.

## Leverage

Leverage is defined pursuant to the applicable ESMA directives as the total of the notional values of the derivatives used by the respective subfund. According to this definition, leverage may result in artificially increased leverage amounts, as some derivatives that can be used for hedging purposes may be included in the calculation. Consequently, this information does not necessarily reflect the precise actual leverage risk that the investor is exposed to.

The Fund engages in Securities Financing Transactions (hereafter "SFT") as defined in Article 3 of Regulation (EU) 2015/2365 (the "Regulation"). Securities Financing Transactions include repurchase transactions, securities or commodities lending and securities or commodities borrowing, buy-sell back transactions or sell-buy back transactions and margin lending transactions through its exposure on reverse repurchase agreements during the year. In accordance with Article 13 of the Regulation, information on securities lendings are detailed below:

### **Global Data**

The following table details the value of securities lending as a proportion of the subfund's Net Assets Value as well as a proportion of the total lendable securities, as at 31 December 2024.

VALORI SICAV	Securities lent in % of Net Assets	Securities lent in % of Total Lendable Securities
– Elite Equity Fund	8.24%	8.28%
– Global Flexible Bond	15.09%	15.40%
– Hearth Ethical Fund	21.18%	22.11%
– Subordinated Debt Fund	22.00%	22.89%

The total amount (absolute value) of the securities lent is disclosed in Note 12 – OTC-Derivatives and Securities Lending.

# Data on income and expense for each type of SFT

All expenses relating to the execution of securities lending transactions and their collateralization are borne by the counterparties and the depositary.

Service providers that provide securities lending services to the Fund have the right to receive a fee in line with market standards in return for their services. The amount of this fee is reviewed and adapted, where appropriate, on an annual basis. Currently, 60% of the gross revenue received in the context of securities lending transactions negotiated at arm's lengths is credited to the relevant subfund, while 40% of the gross revenue are retained as costs/fees by UBS Europe SE, Luxembourg Branch acting as securities lending agent and UBS Switzerland AG providing securities lending services. All costs/fees of running the securities lending programme are paid from the securities lending agents' portion of the gross income. This includes all direct

and indirect costs/fees generated by the securities lending activities. UBS Europe SE, Luxembourg Branch and UBS Switzerland AG are part of the UBS Group.

# Appendix 4 – Remuneration Policy (unaudited)

The Board of Directors of UBS Asset Management (Europe) S.A. (the "Management Company" or the "AIFM") has adopted a remuneration framework (the "Framework") whose objectives are:

on one hand; to ensure that the remuneration framework is in line with the applicable laws and regulations, and more specifically with provisions defined under

- (i) the Luxembourg Law of 17 December 2010 on Undertakings for Collective Investment in Transferable Securities as amended from time to time (the "UCITS Law") transposing the UCITS Directive 2009/65/EC (the "UCITS Directive") as amended by Directive 2014/91/EU (the "UCITS V Directive");
- (ii) the Alternative Investment Fund Managers Directive ("AIFMD") 2011/61/EU, transposed into the Luxembourg AIFM Law dated from 12 July 2013, as amended from time to time;
- (iii) the ESMA's guidelines on sound remuneration policies under the UCITS Directive ESMA/2016/575 and ESMA's guidelines on sound remuneration policies under the AIFMD ESMA/2016/579 both published on 14 October 2016;
- (iv) the CSSF Circular 10/437 on Guidelines concerning the remuneration policies in the financial sector issued on 1 February 2010;
- (v) the Directive 2014/65/EU on markets in financial instruments (MiFID II);
- (vi) the Commission Delegated Regulation 2017/565/EU of 25 April 2016 supplementing Directive 2014/65/EU (MiFID II Level 2);
- (vii) Regulation (EU) 2019/2088 of the European parliament and of the council of 27 November 2019 on sustainability-related disclosures in the financial services sector ("SFDR");
- (viii) the CSSF Circular 23/841, transposing the ESMA Guidelines on certain aspects of the MiFID II remuneration requirements (ESMA 35-43-3565) (MiFID ESMA Guidelines).

and on the other hand, to comply with the Total Reward Principles of UBS Group.

The Framework is meant not to encourage excessive risk taking, to contain measures to avoid conflicts of interest, to be consistent with, and promote, sound and effective risk management, including sustainability risk where applicable, and to be consistent with the UBS Group business strategy, objectives and values.

More details about the Framework of the Management Company/the AIFM, which describes, but not limited to, how remuneration and benefits are determined, are available at https://www.ubs.com/ame-regulatorydisclosures. The Framework is subject to an annual review by the control functions of the Management Company/the AIFM after review and update by the Human Resources department; and is approved by the Board of Directors of the Management Company/the AIFM. Last approval by the Board of Directors took place on 25 September 2024. No material change was made to the Framework.

# Application of the requirements and remuneration disclosure

In accordance with the Article 151 of the UCITS Law and Article 20 of the AIFM Law, the Management Company/the AIFM is required to disclose at least annually certain information concerning its remuneration framework and the practices for its Identified Staff.

The Management Company/the AIFM complies with the UCITS Directive/AIFMD principles in a way and to the extent that is appropriate to its size, internal organisation and the nature, scope and complexity of its activities.

Considering the total size of funds under management, both UCITS and AIFs although a significant portion is not complex or risky investment, the Management Company/the AIFM judges that the proportionality principle may not be applicable at the level of the company but at the level of the Identified Staff.

# Appendix 4 – Remuneration Policy (unaudited)

By application of the proportionality principle for the Identified Staff, the following requirements on pay-out processes for Identified Staff are not applied:

- The payment of variable remuneration in instruments related mainly to the funds in relation to which they perform their activities;
- Deferral requirements;
- Retention periods;
- Incorporation of ex-post risk factors (i.e. malus or clawback arrangements).

The deferral requirements remain however applicable when the annual variable remuneration of Identified Staff exceeds the de minimis threshold adopted by the Management Company or where an employee's total annual compensation is exceeding the threshold defined under the UBS Group Compensation Framework; the variable compensation will be treated in line with the plan rules defined under the UBS Group Compensation Framework.

# Remuneration of Management Company/AIFM staff

The table below provides an overview of the aggregate total remuneration granted to employed staff as of 31 December 2024 and remunerated board members of the Management Company:

EUR 1 000	Fixed remuneration	Variable remuneration	Total remuneration <sup>1</sup>	No of beneficiaries
All staff	15 697	4 595	20 292	134
- whereof Identified Staff	9 107	3 578	12 685	61
- thereof Senior Management <sup>2</sup>	2 820	1 447	4 267	16
- thereof Other Identified Staff	6 287	2 131	8 417	45

<sup>1</sup> As per the proportionality principle applied to the Management Company, the overview reflects key aspects of total remuneration and excludes benefit, pension and severance remuneration data 2 Senior Management includes the CEO, the Conducting Officers, the Head of Compliance, the Branch Managers and Board of Director members. Of which, 2 BoD members are employed by other UBS entities and are

#### Remuneration of the delegates' identified staff

As market or regulatory practice develops, the Portfolio Manager(s) may consider it appropriate to make changes to the way in which quantitative remuneration disclosures are calculated. Where such changes are made and in case of changes to the identified staff and/or in case of change in the number of subfunds over the year, this may result in disclosures in relation to the Fund not being comparable to the disclosures made in the prior year.

For the year ending 31 December 2024, the aggregate total remuneration paid by the delegated Investment Manager to its Identified Staff in relation to the Fund amounted to CHF 1 023 264.00 (10 beneficiaries), of which CHF 483 200.00 (9 beneficiaries) represented the variable remuneration.

<sup>\*</sup> senior Management includes the LEU, the Conducting Utricers, the Head of Compilance, the Branch Managers and Board of Director members. Of Which, 2 Bob members are employed by other UBS entities and at not eligible to any compensation for this mandate.

# Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

#### `ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: VALORI SICAV - Elite Equity Fund

Legal entity identifier: 5493005NZIXYNT8CRH37

# Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance

practices.

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852, establishing a list of environmentally sustainable economic activities. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

# Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?				
Yes	● ○ 🗶 No			
It made sustainable investments with an environmental objective:%  in economic activities that qualify as environmentally sustainable under the EU Taxonomy  in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 0% of sustainable investments  with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy  with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy  with a social objective			
It made sustainable investments with a social objective:%	It promoted E/S characteristics, but did not make any sustainable investments			

# To what extent were the environmental and/or social characteristics promoted by this financial product met?

The following environmental and social characteristics were promoted such as climate change, water, pollution and waste management, and gender-related matters by investingin issuers/companies with a strong environmental and social performance characteristics on the Investment Manager's ("VALAM" or "Investment Manager") proprietary ESG scoring model.

No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

# Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

The extent to which the environmental and/or social characteristics promoted by this financial product is met is stated in the answer to the question "How did the sustainability indicators perform?" of this annex.

#### How did the sustainability indicators perform?

At the end of the reference period, the average ESG Risk Score of the corporates of the portfolio was 19.62. 100 being the worst percentile and 0 being the best.

The portfolio didn't have any exposure in Government bonds.

A minimum of 60% of issuers/companies had an ESG score on the VALAM's proprietary EGS scoring. In detail, 99.59% of the assets under management were scored with a corporate ESG Risk Score and 0% had a Country Score. In total 99.59% of the AuM had an ESG score on the VALAM's proprietary EGS scoring.

# Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

#### ...and compared to previous periods?

Metric	2024 Value	2023 Value	
Average ESG Risk Score of the corporates	19.62	20.71	_
Assets with Corporate ESG Risk Score	99.59%	96.58%	
Total AuM with ESG Score	99.59%	96.58%	

At the end of 2023 and 2024, the portfolio didn't have any exposure in either Government bonds nor target funds.

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

The fund does not have sustainable objectives.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The fund does not have sustainable objectives.

— How were the indicators for adverse impacts on sustainability factors taken into account?

The fund does not have sustainable objectives.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

The fund does not have sustainable objectives.

# Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmen

tally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

# How did this financial product consider principal adverse impacts on sustainability factors?

The Sub-Fund considered adverse impacts of its investments on society and the environment through a combination of portfolio management decisions, active ownership activities, and exclusion of companies or sectors associated with controversial conduct or activities. The indicators for adverse impacts on sustainability factors that the Investment Manager focused on include (but are not limited to) exposure to controversial weapons and violation of UN Global Compact Principles.

This statement on principal adverse impacts on sustainability factors covers the reference period from 1st of January 2024 to 31th of December 2024.

### What was the proportion of sustainability-related investments?

The proportion of investments aligned with the E/S characteristics promoted by the Sub-Fund (1# Aligned with E/S characteristics) was 99.59% of its total assets. The Subfund invested 0.41% of its total assets in other investments (#2 Other).

### What was the asset allocation?

Asset allocation describes the share of investments in specific assets.

To comply with the EU Taxonomy, the criteria for fossil gas include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For nuclear energy, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

In which economic sectors were the investments made?

Please refer to the section "Structure of the Securities Portfolio" of the relevant subfund of this Annual report to review the breakdown of the economic sectors where the investments were made.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The Subfund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy (0%).

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

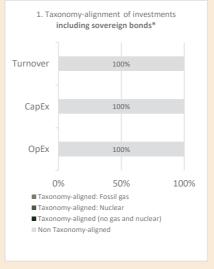

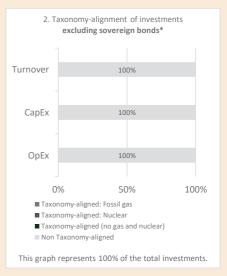

<sup>&</sup>lt;sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- reflecting the share of revenue from green activities of investee companies.
- capital
  expenditure
  (CapEx) showing
  the green
  investments made
  by investee
  companies, e.g. for
  a transition to a
  green economy.
- operational expenditure (OpEx) reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

- For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.
- What was the share of investments made in transitional and enabling activities?

The Subfund did not make investments in transitional and enabling economic activities (0%).

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

The percentage of investments that were aligned with the EU Taxonomy remained the same compared to previous reference period, 0%.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The Subfund did not make sustainable investments with an environmental objective not aligned ith the EU Taxonomy (0%).

What was the share of socially sustainable investments?

The Subfund did not make any socially sustainable investment (0%).

are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under Regulation (EU) 2020/852.

# What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

"Other" Investments may included investments in liquid assets (cash and cash equivalents) held for the purposes of servicing the day-to-day requirements of the Sub-fund or investments for which there was insufficient data to be considered ESG-related Investment. Equities or fixed income instruments lacking a Sustainalytics rating have been included. The service provider covered the big majority of the listed equities and a great portion of corporate debt. VALAM executed the due diligence on the companies that were not covered by Sustainalytics data with the objective to exclude those involved in controversial activities such as Gambling and Tobacco.

# What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the environmental and/ or social characteristics were met by following the investment strategy and applying exclusion criteria as per the sales prospectus.

The investment strategies and/ or exclusion criteria were monitored to ensure adherence.

### How did this financial product perform compared to the reference benchmark?

No reference benchmark has been designated for the purpose of attaining the environmental and/or social characteristics.

How does the reference benchmark differ from a broad market index?
N/A

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

N/A

- How did this financial product perform compared with the reference benchmark?
  N/A
- How did this financial product perform compared with the broad market index?\(^\text{N/A}\)

### `ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: VALORI SICAV - Global Flexible Bond

Legal entity identifier: 391200ZDGSSOE166E279

### Environmental and/or social characteristics

investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

Sustainable

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852, establishing a list of environmentally sustainable economic activities.

economic activities.
That Regulation
does not include a
list of socially
sustainable
economic activities.
Sustainable
investments with an
environmental
objective might be
aligned with the
Taxonomy or not.

Did this financial product have a sustain	nable investment objective?
• • Yes	• No
It made sustainable investments with an environmental objective:%  in economic activities that qualify as environmentally sustainable under the EU Taxonomy  in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 0% of sustainable investments  with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy  with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy  with a social objective
It made sustainable investments with a social objective:%	★ It promoted E/S characteristics, but did not make any sustainable investments

# To what extent were the environmental and/or social characteristics promoted by this financial product met?

The following environmental and social characteristics were promoted such as climate change, water, pollution and waste management, and gender-related matters by investing in issuers/companies with a strong environmental and social performance characteristics on the Investment Manager's ("VALAM" or "Investment Manager") proprietary ESG scoring model.

No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

# Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

### How did the sustainability indicators perform?

At the end of the reference period, the average ESG Risk Score of the corporates of the portfolio was 14.37. 100 being the worst percentile and 0 being the best.

The Average Percentile of Government Bonds holdings was 64.29 based on the proprietary ESG Country Rating. Zero being the worst percentile and 100 being the best.

A minimum of 60% of issuers/companies had an ESG score on the VALAM's proprietary EGS scoring. In detail, 66.44% of the assets under management were scored with a corporate ESG Risk Score and 12.22% had a Country Score. In total 78.66% of the AuM had an ESG score on the VALAM's proprietary EGS scoring.

### ...and compared to previous periods?

Metric	2024 Value	2023 Value
Average Corporate ESG Risk Score	14.37	14.93
Assets with Corporate ESG Risk Score	66.44%	71.8%
Average ESG Risk Score of the government	64.29	75
Assets with Country ESG Risk Score	12.22%	18.76%
Total AuM with ESG Score	78.66%	90.56%

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

The fund does not have sustainable objectives.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The fund does not have sustainable objectives.

How were the indicators for adverse impacts on sustainability factors taken into account?

The fund does not have sustainable objectives.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

The fund does not have sustainable objectives.

### Principal adverse

impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmen

tally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

# How did this financial product consider principal adverse impacts on sustainability factors?

The Sub-Fund considered adverse impacts of its investments on society and the environment through a combination of portfolio management decisions, active ownership activities, and exclusion of companies or sectors associated with controversial conduct or activities. The indicators for adverse impacts on sustainability factors that the Investment Manager focused on include (but are not limited to) exposure to controversial weapons and violation of UN Global Compact Principles. This statement on principal adverse impacts on sustainability factors covers the reference period from 1st of January 2024 to 31th of December 2024.

### What was the proportion of sustainability-related investments?

The proportion of investments aligned with the E/S characteristics promoted by the Sub-Fund (1# Aligned with E/S characteristics) was 78.66% of its total assets. The Subfund invested 21.34% of its total assets in other investments (#2 Other).

### What was the asset allocation?

Asset allocation describes the share of investments in specific assets.

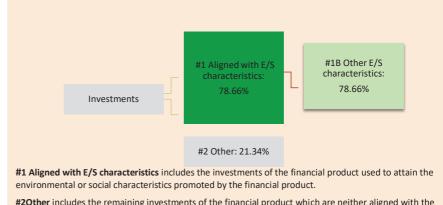

To comply with the EU Taxonomy, the criteria for fossil gas include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For nuclear energy, the criteria include comprehensive safety and waste management rules.

### Enabling activities directly enable other activities to make a substantial contribution to an

contribution to an environmental objective.

Transitional

activities are
activities for which
low-carbon
alternatives are not
yet available and
among others have
greenhouse gas
emission levels
corresponding to
the best
performance.

**#20ther** includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category #1 Aligned with E/S characteristics covers:

- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

### In which economic sectors were the investments made?

Please refer to the section "Structure of the Securities Portfolio" of the relevant subfund of this Annual report to review the breakdown of the economic sectors where the investments were made.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The Subfund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy (0%).

Taxonomy-aligned activities are expressed as a share of:

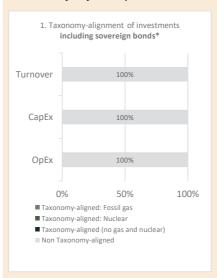

- turnover
   reflecting the
   share of revenue
   from green
   activities of
   investee
   companies.
- capital
  expenditure
  (CapEx) showing
  the green
  investments made
  by investee
  companies, e.g. for
  a transition to a
  green economy.
- operational expenditure (OpEx) reflecting green operational activities of investee companies.

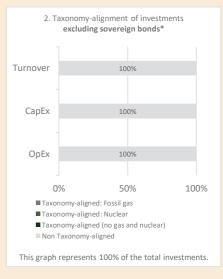

are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under Regulation (EU) 2020/852.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

- \* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.
- What was the share of investments made in transitional and enabling activities?

The Subfund did not make investments in transitional and enabling economic activities (0%).

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

The percentage of investments that were aligned with the EU Taxonomy remained the same compared to previous reference period (0%).

<sup>&</sup>lt;sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The Subfund did not make sustainable investments with an environmental objective not aligned ith the EU Taxonomy (0%).

### What was the share of socially sustainable investments?

The Subfund did not make any socially sustainable investment (0%).

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

"Other" Investments may included investments in liquid assets (cash and cash equivalents) held for the purposes of servicing the day-to-day requirements of the Sub-fund or investments for which there was insufficient data to be considered ESG-related Investment. Other investments that may fell into this category were funds (UCITS and/or other UCIs, including ETFs) that did not reach the minimum rated threshold and therefore did not have a Morningstar sustainability rating. Equities or fixed income instruments lacking a Sustainalytics rating have been included. The service provider covered the big majority of the listed equities and therefore a great portion of corporate debt. VALAM executed the due diligence on the companies that were not covered by Sustainalytics data with the objective to exclude those involved in controversial activities such as Gambling and Tobacco.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the environmental and/ or social characteristics were met by following the investment strategy and applying exclusion criteria as per the sales prospectus.

The investment strategies and/ or exclusion criteria are monitored to ensure adherence.

How did this financial product perform compared to the reference benchmark? No reference benchmark has been designated for the purpose of attaining the environmental and/or social characteristics.

How does the reference benchmark differ from a broad market index?

N/A

How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

N/A

- How did this financial product perform compared with the reference benchmark?
  N/A
- How did this financial product perform compared with the broad market index?` N/A

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

### **`ANNEX IV**

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: Hearth Ethical Fund Legal entity identifier: 391200RNXDRY9W1XF889

# Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance

practices.

The EU Taxonomy is system laid down in Regulation (EU) 2020/852, establishing a list of environmentally sustainable economic activities. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

## Environmental and/or social characteristics

Did this financial product have a sustai	nable investment objective?
Yes	● ○ X No
It made sustainable investments with an environmental objective:%  in economic activities that qualify as environmentally sustainable under the EU Taxonomy  in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 18.51% of sustainable investments  with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy  with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy  with a social objective
It made sustainable investments with a social objective:%	It promoted E/S characteristics, but <b>did not</b> make any sustainable investments

# To what extent were the environmental and/or social characteristics promoted by this financial product met?

The following environmental and social characteristics were promoted such as climate change, water, pollution and waste management, and gender-related matters by investing in issuers/companies with a strong environmental and social performance characteristics on the Investment Manager's ("VALAM" or "Investment Manager") proprietary ESG scoring model.

No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

### How did the sustainability indicators perform?

At the end of the reference period, the average ESG Risk Score of the corporates of the portfolio was 16.14. 100 being the worst percentile and 0 being the best.

The Average Percentile of Government Bonds holdings was 69.42 based on the proprietary ESG Country Rating. Zero being the worst percentile and 100 being the best.

A minimum of 60% of issuers/companies had an ESG score on the VALAM's proprietary EGS scoring. In detail, 75.85% of the assets under management were scored with a corporate ESG Risk Score and 8.56% had a Country Score. In total 84.42% of the AuM had an ESG score on the VALAM's proprietary EGS scoring.

### ... and compared to previous periods?

Metric	2024 Value	2023 Value
Average Corporate ESG Risk Score	16.14	16.85
Assets with Corporate ESG Risk Score	75.85%	74.9%
Average ESG Risk Score of Governments	69.42	72.31
Assets with Country ESG Risk Score	8.56%	19.6%
Total AuM with ESG Score	84.42%	94.5%

### What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

The objectives of the sustainable investments that the Sub-Fund partially made to contribute to the environmental and/or social characteristic(s) are set out above in response to the question "To what extent were the environmental and/or social characteristics promoted by this financial product met?"

The objectives of the sustainable investments made by the financial product were to finance companies that contribute to environmental and/or social objectives through their products and services, as well as their sustainable practices this has been done directly gaining exposure to labelled bonds such as "Social Bonds" or "Green Bonds".

The sub-fund aimed for an improvement of the overall ESG score of the portfolio, through portfolio construction. The PM also integrated the PAIs in the security selection as well in the day to day portfolio monitoring, the results are reflected in the PAIs report at the end of this Annex IV.

At the end of the reference period:

- 1.23% of the AuM of the Sub-Fund were classified as Socially Sustainable abiding by the 1% minimum amount stated in the prospectus.
- 18.51% of the AuM of the Sub-Fund were classified as Environmentally Sustainable abiding by the 1% minimum amount stated in the prospectus.

- 18.51% of the AuM of the Sub-Fund were classified as Socially or Environmentally Sustainable abiding by the 5% minimum amount stated in the prospectus.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

VALAM's Do Not Significant Harm (DNSH) testing entailed both a social/governance and an environmental check. The social/governance analysis was performed through the check of the adherence of investee companies to social global norms, i.e. UN Global Compact (UNGC) Principles and OECD Guidelines for Multinational Enterprise and the exclusion of companies involved in controversial weapons, using the same approach of SFDR Principal Adverse Impact (PAI) n. 10 and 14. The environmental check analyzed investee companies' reported and estimated revenues to ensure no environmental harm was caused through their economic activity and, on the contrary, they contribute to the protection of ecosystems and, more specifically, to climate change adaptation and mitigation, protection of water resources, transition to a circular economy, reduction of air, water and soil pollution, and protection of biodiversity.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

— — How were the indicators for adverse impacts on sustainability factors taken into account?

The indicators for adverse impacts on sustainability factors were taken into account through number 10 and number 14. Therefore the adherence of investee companies to social global norms, i.e. UN Global Compact (UNGC) Principles and OECD Guidelines for Multinational Enterprise and the exclusion of companies involved in controversial weapons.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Valori AM performed a screening process that assured that sustainable investments complied with OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmen

tally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

# How did this financial product consider principal adverse impacts on sustainability factors?

The Sub-Fund considerd adverse impacts of its investments on society and the environment through a combination of portfolio management decisions, active ownership activities, and exclusion of companies or sectors associated with controversial conduct or activities. The indicators for adverse impacts on sustainability factors that the Investment Manager focused on include (but are not limited to) exposure to controversial weapons and violation of UN Global Compact Principles.

This statement on principal adverse impacts on sustainability factors covers the reference period from 1st of January 2024 to 31th of December 2024.

### What was the proportion of sustainability-related investments?

The proportion of investments aligned with the E/S characteristics promoted by the Sub-Fund (#1) was 84.42% of its total assets, which included 18.51% in Sustainable investments (#1A), and 65.91% in Other E/S characteristics (#1B). The Subfund invested 15.58% of its total assets in other investemtns (#2 Other).

### What was the asset allocation?

Asset allocation describes the share of investments in specific assets.

**#1** Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

**#20ther** includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

In which economic sectors were the investments made?

Please refer to the section "Structure of the Securities Portfolio" of the relevant subfund of this Annual report to review the breakdown of the economic sectors where the investments were made.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The Subfund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy (0%).

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

	Yes:		
		In fossil gas	In nuclear energy
×	No		

To comply with the EU Taxonomy, the criteria for fossil gas include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For nuclear energy, the criteria include comprehensive safety and waste management rules.

**Enabling activities** directly enable other activities to

other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best

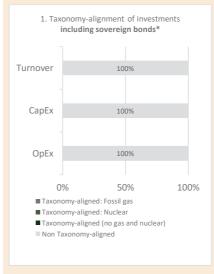

performance.

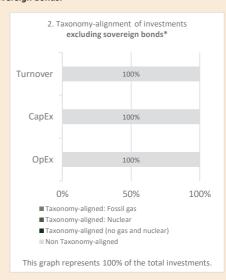

<sup>&</sup>lt;sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- turnover
   reflecting the
   share of revenue
   from green
   activities of
   investee
   companies.
- capital
  expenditure
  (CapEx) showing
  the green
  investments made
  by investee
  companies, e.g. for
  a transition to a
  green economy.
- operational expenditure (OpEx) reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

- \* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.
- What was the share of investments made in transitional and enabling activities?

The Subfund did not make investments in transitional and enabling economic activities (0%).

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

The percentage of investments that were aligned with the EU Taxonomy remained the same compared to previous reference period, 0%.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The Subfund had 18.51% of sustainable investments with an environmental objective not aligned ith the EU Taxonomy.

What was the share of socially sustainable investments?

Share of socially sustainable investments was 1.23%

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

"Other" Investments may included investments in liquid assets (cash and cash equivalents) held for the purposes of servicing the day-to-day requirements of the Sub-fund or investments for which there was insufficient data to be considered ESG-related Investment. Equities or fixed income instruments lacking a Sustainalytics rating have been included. The service provider covered the big majority of the listed equities and therefore a great portion of corporate debt. VALAM executed the due diligence on the companies that were not covered by Sustainalytics data with the objective to exclude those involved in controversial activities such as Gambling and Tobacco.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the environmental and/ or social characteristics were met by following the investment strategy and applying exclusion criteria as per the sales prospectus.

The investment strategies and/ or exclusion criteria are monitored to ensure adherence.

How did this financial product perform compared to the reference benchmark? *No reference benchmark has been designated.* 

How does the reference benchmark differ from a broad market index?

No reference benchmark has been designated.

How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

No reference benchmark has been designated.

- How did this financial product perform compared with the reference benchmark?
  No reference benchmark has been designated.
- How did this financial product perform compared with the broad market index?
  No reference benchmark has been designated.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

### `ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: VALORI SICAV - Subordinated Debt Fund Legal entity identifier: 549300MPF60EU9GD7W80

# Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852, establishing a list of environmentally sustainable economic activities.

practices.

That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

### Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?				
Yes	● ○ 🗶 No			
It made sustainable investments with an environmental objective:%  in economic activities that qualify as environmentally sustainable under the EU Taxonomy  in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 0% of sustainable investments  with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy  with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy  with a social objective			
It made sustainable investments with a social objective:%	It promoted E/S characteristics, but did not make any sustainable investments			

# To what extent were the environmental and/or social characteristics promoted by this financial product met?

The following environmental and social characteristics were promoted such as climate change, water, pollution and waste management, and gender-related matters by investing in issuers/companies with a strong environmental and social performance characteristics on the Investment Manager's ("VALAM" or "Investment Manager") proprietary ESG scoring model.

No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

The extent to which the environmental and/or social characteristics promoted by this financial product is met is stated in the answer to the question "How did the sustainability indicators perform?" of this annex.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

### How did the sustainability indicators perform?

At the end of the reference period, the average ESG Risk Score of the corporates of the portfolio was 16.77. 100 being the worst percentile and 0 being the best.

The portfolio didn't have any exposure in Government bonds.

A minimum of 60% of issuers/companies had an ESG score on the VALAM's proprietary EGS scoring. In detail, 88.32% of the assets under management were scored with a corporate ESG Risk Score and 0% had a Country Score. In total 88.32% of the AuM had an ESG score on the VALAM's proprietary EGS scoring.

### ...and compared to previous periods?

Metric	2024 Value	<b>2023</b> Value
Average ESG Risk Score of the corporates	16.77	17.88
Assets with Corporate ESG Risk Score	88.32%	96.68%
Total AuM with ESG Score	88.32%	96.68%

In both end of year 2023 and 2024, the portfolio didn't have exposure in either Government bonds, nor target funds.

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

The fund does not have sustainable objectives.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The fund does not have sustainable objectives.

 How were the indicators for adverse impacts on sustainability factors taken into account?

The fund does not have sustainable objectives.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

The fund does not have sustainable objectives.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmen

tally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

# How did this financial product consider principal adverse impacts on sustainability factors?

The Sub-Fund considered adverse impacts of its investments on society and the environment through a combination of portfolio management decisions, active ownership activities, and exclusion of companies or sectors associated with controversial conduct or activities. The indicators for adverse impacts on sustainability factors that the Investment Manager focused on include (but are not limited to) exposure to controversial weapons and violation of UN Global Compact Principles. This statement on principal adverse impacts on sustainability factors covers the reference period from 1st of January 2024 to 31th of December 2024.

### What was the proportion of sustainability-related investments?

The proportion of investments aligned with the E/S characteristics promoted by the Sub-Fund (1# Aligned with E/S characteristics) was 88.32% of its total assets. The Subfund invested 11.68% of its total assets in other investemtns (#2 Other).

### What was the asset allocation?

Asset allocation describes the share of investments in specific assets.

environmental or social characteristics promoted by the financial product.

#20ther includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category #1 Aligned with E/S characteristics covers:

- The sub-category #1B Other E/S characteristics covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

In which economic sectors were the investments made?

Please refer to the section "Structure of the Securities Portfolio" of the relevant subfund of this Annual report to review the breakdown of the economic sectors where the investments were made.

To comply with the EU Taxonomy, the criteria for fossil gas include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For nuclear energy, the criteria include comprehensive safety and waste management rules.

Enabling activities

directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to

the best performance.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The Subfund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy (0%).

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

	Yes:		
		In fossil gas	In nuclear energy
×	No		

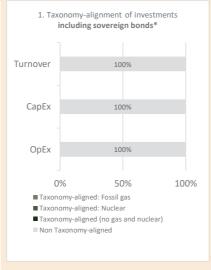

<sup>&</sup>lt;sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

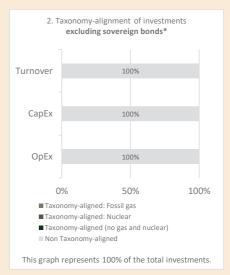

Taxonomy-aligned activities are expressed as a share of:

- reflecting the share of revenue from green activities of investee companies.
- capital
  expenditure
  (CapEx) showing
  the green
  investments made
  by investee
  companies, e.g. for
  a transition to a
  green economy.
- green economy.

  operational
  expenditure
  (OpEx) reflecting
  green operational
  activities of
  investee
  companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

- \* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.
- What was the share of investments made in transitional and enabling activities?

The Subfund did not make investments in transitional and enabling economic activities (0%).

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

The percentage of investments that were aligned with the EU Taxonomy remained the same compared to previous reference period, 0%.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The Subfund did not make sustainable investments with an environmental objective not aligned ith the EU Taxonomy (0%).

What was the share of socially sustainable investments?

The Subfund did not make any socially sustainable investment (0%).

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under Regulation (EU) 2020/852.

"Other" Investments may included investments in liquid assets (cash and cash equivalents) held for the purposes of servicing the day-to-day requirements of the Sub-fund or investments for which there was insufficient data to be considered ESG-related Investment. Other investments that may fell into this category were funds (UCITS and/or other UCIs, including ETFs) that did not reach the minimum rated threshold and therefore did not have a Morningstar sustainability rating. Equities or fixed income instruments lacking a Sustainalytics rating have been included. The service provider covered the big majority of the listed equities and therefore a great portion of corporate debt. VALAM executed the due diligence on the companies that were not covered by Sustainalytics data with the objective to exclude those involved in controversial activities such as Gambling and Tobacco.

# What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the environmental and/ or social characteristics were met by following the investment strategy and applying exclusion criteria as per the sales prospectus.

The investment strategies and/ or exclusion criteria are monitored to ensure adherence.

### How did this financial product perform compared to the reference benchmark?

No reference benchmark has been designated for the purpose of attaining the environmental and/or social characteristics.

How does the reference benchmark differ from a broad market index?
N/A

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

N/A

- How did this financial product perform compared with the reference benchmark?
  N/A
- How did this financial product perform compared with the broad market index?
