

ESG Report of the Fund Q1 2026

The Fund incorporates ESG aspects into investment decisions through its financial impact on the company, but also by considering non-quantifiable governance matters and social practices. The investment strategy is based on bond and stock selection and a negative screening applies through the ESG integration process. The analysis is performed by the portfolio management team with data sourced from leading service providers (**Sustainalytics**) and by an in-house ESG team. Sustainalytics ESG Risk scores range between 0 and 100 (0 being the best and 100 being the worst).

Valori Asset Management & the Principles For Responsible Investing (PRI)

Valori became a signatory of the United Nations' Principles for Responsible Investing (PRI) in 2018. As the PRI are becoming the global standard in responsible investing, it was a natural framework for Tendercapital to adopt those principles in order to further strengthen its on-going commitment to responsible investing and ESG matters generally. A strong ESG proposition can enhance investment returns by allocating capital to more promising and more sustainable opportunities (for example, renewables, waste reduction, innovative materials...). When it comes to ESG, it's important to bear in mind that a do-nothing

VALAM will exclude any company from the investment universe that is involved in **detrimental activities or sectors**. VALAM uses a **“level of involvement”** in certain activities, which is an indicator based on the percentage of the revenues, the production, the distribution and the significant ownership that a company may have to the following activities. Controversial Weapons has 0% revenues threshold while other activities (e.g. Gambling, Tobacco etc) have a 10% of revenues threshold to determine the exclusion.
